October 26, 2007

Dear Parents and Guardians,

We have great news to share with you!

This year the way in which you are made aware of school cancellations, delays and early dismissals is going to be easier than ever. You now have many options. You will still receive the information as you have in the past on your favorite radio and television station and their websites.

Additionally, you can now sign up to be personally notified by text message on your cell phone, PDA or through an email address. There is no charge for this service, although we encourage you to review your cell phone company plan for text messaging charges.

The simple registration form is available on the websites of participating radio and television stations. You will be able to select from 2 organizations (school, business, daycare, college/university, and more...to be notified about. Check out your favorite radio or television website for more information. It's easy, secure and you'll always be informed.

This service is made possible by the RI Broadcasters Association and its member stations of free over the air radio and television stations licensed to the State of Rhode Island.

During inclement weather, always stay tuned to your favorite radio and television station for up to the minute information on the weather and school closings and delays.

Wishing you a safe Winter Season!

Mario F. Cirillo, Jr., Ed.D.
Superintendent, Foster-Glocester
Regional School District
